Media Use & News Avoidance

Media Use, Course A
Summer Term 26
Dr. Isabella Gonçalves

AGENDA

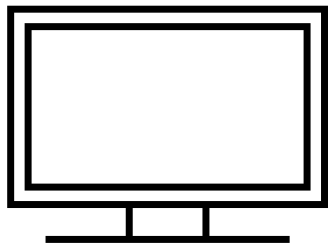
1. **Group Discussion: Challenges in Media Use Research**

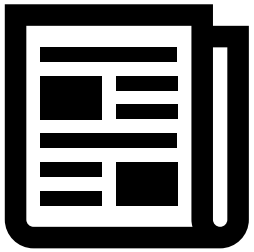
2. (commercial) audience research
   a) Allensbach‘s market and advertising media analysis (AWA)
   b) Study series: Media und ihr Publikum
   c) Media-Analyse: Group Activity

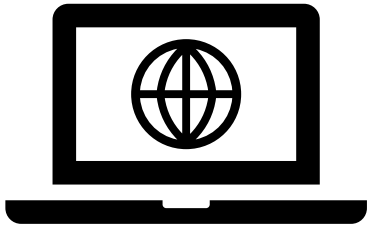
3. Open questions

GROUP DISCUSSION

- You are commissioned to survey the television/radio/newspaper/internet usage of the German population as representatively and as accurately as possible. How would you proceed? What challenges do you face? Think, for example, of…
  media convergence, sampling, survey options…







COMPLETE THE PADDLE IN GROUPS

- You have 10 Minutes

ALLENSBACHER MARKT- UND WERBETRÄGERANALYSE (AWA)

- since 1959
- Population: „German-speaking population aged 14 and over in private households at the place of main residence in the Federal Republic of Germany“
- Sample: quota sample
- Sample size: approx. 23,000 per year in two waves
- Mode: face to face
- Single-source survey

https://www.ifd-allensbach.de/awa

QUOTA SAMPLING

Advantages

Allows a small sample to still be representative of the population

No sampling frame required

Quick, easy, and inexpensive

Allows for easy comparison between different groups within a population

Disadvantages

Non-random sampling can introduce bias

Population must be divided into groups, which can be costly or inaccurate

Increasing scope of study increases number of groups, which adds time and expense

Non-responses are not recorded as such

https://www.ifd-allensbach.de/awa

Contents

- Socio-demographics, typologies
- Politics, society
- Occupation
- Personality, values, family, social circle

Product Market

- Sports, leisure time
- Culture, books, languages
- Vacation and travels
- Finances, insurances
- Housing, gardens, animals
- Food and drinks
- Health and well-being
- Fashion, hygiene, cosmetics
- Motor vehicles
- Entertainment media & photography
- Computers, telecommunication, internet

- Types of consumption behaviors and types of buyers
- Interests
- tv-genres, types of music
- Information searching behavior, media use, advertising

- media use (print, TV, radio, internet, movie theaters)
  - focus on print ➔ ~ 300 print media
  - additionally: special interests

OVERVIEW

Media and their Audience

Core

Media Communication Trends
(Annual)

Modules

ARD/ZDF Online Study
(Annual)

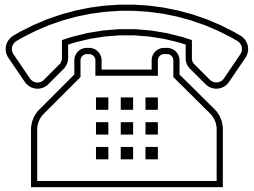
Long-term Mass Communication Study
(Every 5 years)

Specific Topics
(Irregular)

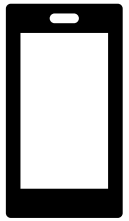
- Series of studies (ARD & ZDF)
- New concept in 2017 due to evolving media consumption patterns
- Merger of the two "flagship studies„ *Langzeitstudie Massenkommunikation* and *ARD/ZDF-Onlinestudie*
- Modular structure ➔ multi-source approach, data fusion of different sources

SAMPLING STRATEGY

- **Dual-Frame Sampling:** Respondents are selected from each frame, typically in equal proportions.



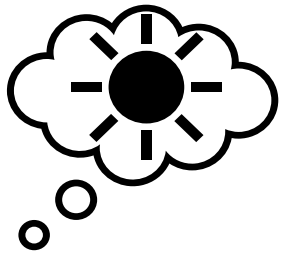
Fixed-line telephone sample



Mobile Telephone Sample

- **Main Advantage:** Traditional fixed-line-only surveys often fail to represent younger, mobile-only groups

SURVEY CONTENT

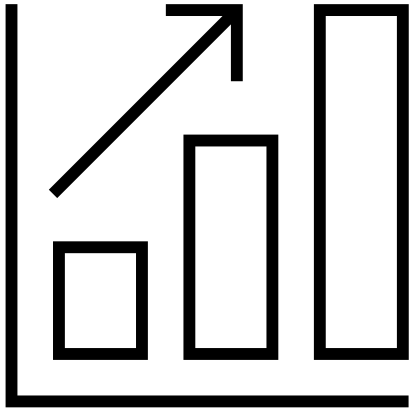


Day-after-recall method

15-minute intervals

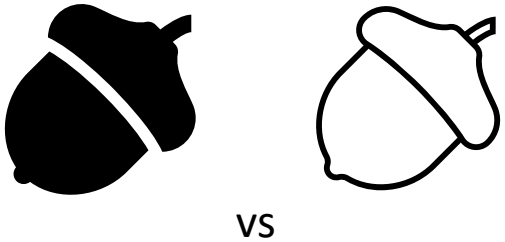
- Respondents are asked about media activities (e.g., watching TV, listening to radio, reading articles) and other daily tasks or activities (e.g., commuting, working, leisure).
- Media use is not surveyed "classically" on the basis of media types (TV, radio, Internet, etc.), but according to the "perception dimensions of seeing, hearing, reading

ADVANTAGES OF THIS APPROACH



Improved Accuracy

Detailed Insights



Consistency and Comparability

AGENDA

1. Group Discussion: Challenges in Media Use Research

2. (commercial) audience research
   a) Allensbach‘s market and advertising media analysis (AWA)
   b) Study series: Media und ihr Publikum
   c) Media-Analyse: Group Activity

GROUP ACTIVITY - AGMA

AGMA examines media use in Germany considering muitiple media types. In the previous sections, I have provided an overview of the studies of AWA and Study Series (ARD & ZDF).

Now it is your turn!

In groups, complete one of the following categories: Television, Print news media, Press media, Internet, Radio.

In case you do not understand German, I recommend you to use the automatic translator.

- You have 20 Minutes

NEXT CLASS: ROLE PLAY ACTIVITY

23.05.2025 - Role Play Activity (Prior Preparation Needed!)

Als erledigt kennzeichnen

Prior to Class

1. Research on AWA, agma, and AGF studies.

Class Agenda

You will be randomly assigned to one of the groups: (1) Research Grant Committee; (2) Research Team AWA, (3) Research Team agma, and (4) Research Team AGF.

The scenario of our Role Play Activity is the following:

- The Research Grant Committee has limited funds to invest in research.
- Each research team (the groups assigned to AWA, agma, and AGF) must pitch their study, convincing the policy makers that their study has the most value for public policy or societal impact.
- The Research Grant Committee will evaluate the pitches and allocate funding to one group at the end. Their role is to know the flaws of each of the studies, and make critical questions to the Research Teams.

For a detailed overview of the activity, please check the document Role Play Overview.

Role-Playing Activity with Funding Decision:

Groups:

AWA Team	AGF Team	AGMA Team	Research Grant Committee
Anna Satake	Ruth Isabel Moncayo Santistevan	Ornella Raíssa Gasparian Affonseca Faria	Nahiara Lapeire Munarriz
Matthis Siegfried SchÃ¼le	Annika Norbisrath	Oliver Schönborn	Max Benke
Cäcilie Charlott Zwiebel	Benjamin Eppert	Lucia Andrea Lavinia Seiwert	Lucas Sebastian Chestaro Bachmann
Hannes Boris Schroeders	Finja Suhr	Maria Katarzyna Bulinska	Jane Hadzhieva Dimitrova
Maja Lucie Schmädeke	Falk Simon Bost		

1. Setting the Scenario:

- The **Research Grant Committee** has limited funds to invest in research.
- Each research team (the groups assigned to AWA, agma, and AGF) must pitch their study, convincing the policy makers that their study has the most value for public policy or societal impact.
- The policy makers will evaluate the pitches and allocate funding to one group at the end.
